Google Advanced Data Analytics Professional Certificate(v.2)

Issued by: Coursera

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 30 January 2026

Description: This course is offered through Coursera, which is an ACE Authorized Instructional Platform. The course objective is to build on data analytics skills and experience to take one's career to the next level. It is designed for graduates of the Google Data Analytics Certificate or people with equivalent data analytics experience.

FIBAA

Total Credits: 8 Grade: Pass

Credit Recommendation:

- 8 semester hours

American Council on Education

Course Number: GOOG-0009 (v.2) Total Credits: 10 Grade: Pass

Credit Recommendation:

- 6 semester hours in Introduction to Data Science in the lower-division undergraduate category
- 3 semester hours in Introduction to Python in the lower-division undergraduate category
- 1 semester hour in Career Development in the lower-division undergraduate category

IBM Cybersecurity Specialist Professional Certificate

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 1 February 2026

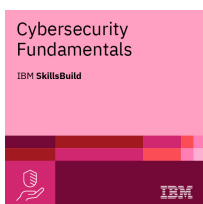

Description: This credential earner is well prepared for an entry-level role as a cybersecurity specialist. They recognize the importance of data security and can implement preferred authentication, encryption, and device security practices. They can also identify security threats, breaches, malware, social engineering, and other attack vectors. Additionally, in a series of practical, hands-on exercises, they have demonstrated the ability to leverage common tools to prevent threats and attacks.

[American Council on Education](#)

Course Number: IBM-0030 (v.1) Total Credits: 12 Grade: Pass

Credit Recommendation:

- 3 semester hours in IT Fundamentals in the lower-division undergraduate category
- 3 semester hours in Introduction to Networking in the lower-division undergraduate category
- 3 semester hours in Introduction to Cloud Computing in the lower-division undergraduate category
- 3 semester hours in Introduction of Cybersecurity in the lower-division undergraduate category

[Cybersecurity Fundamentals](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 16 October 2024

Description: This credential earner demonstrates a foundational understanding of cybersecurity concepts, objectives, and practices. This includes cyber threat groups, types of attacks, social engineering, case studies, overall security strategies, cryptography, and common approaches that organizations take to prevent, detect, and respond to cyber attacks. This also includes an awareness of the job market. Earners can use this knowledge to pursue further education for a variety of roles in cybersecurity.

[Introduction to the Threat Landscape 2.0](#)

Issued by: Fortinet

Issued to: Asim Abdulrahman

Issued on: 13 January 2025

Description: The Introduction to the Threat Landscape 2.0 badge recognizes a fundamental understanding of the cyber threat landscape. The badge earner has demonstrated essential knowledge of the threats that endanger computer networks, the cast of bad actors who are behind cyber threats, and the cyber security principles that can keep users and computer networks safe.

[Introduction to Data Science](#)

Issued by: Cisco

Issued to: Asim Abdulrahman

Issued on: 12 March 2025

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Data Science course. The holder of this student-level credential has a broad understanding in basic concepts of Data Analytics, Data Engineering, Data Science and AI/ML related job functions. They also have insight into opportunities available for pursuing career in various data roles.

[Introduction to Packet Tracer](#)

Issued by: [Cisco](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 14 March 2025

Description: Cisco verifies the earner of this badge has knowledge and skills to create digital models of IP Networks and IoT Systems using Cisco Packet Tracer.

[Agile Explorer](#)

Issued by: [IBM SkillsBuild](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 14 March 2025

Description: This credential earner has a foundational understanding of the Agile values, principles, and practices that help change culture and behaviors in the way that people work. The individual can initiate an Agile conversation with team members and colleagues, and can apply the Agile method to the operations and programs work they do in a family, academic, or work environment.

[Introduction to Design Thinking](#)

Issued by: [Virginia Commonwealth University](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 15 March 2025

Description: Earners of this badge from the VCU da Vinci Center have been introduced to the six foundational steps in the design thinking process: defining How Might We challenges, seeking extremes, creating options, selecting ideas, prototyping, and feedback. Participants engaged in individual and collaborative exercises that allowed them to practice each of the six steps and resulted in the creation of a low-fidelity prototype and digital asset that demonstrated mastery.

Basics in Lucidspark

Issued by: [Lucid Software](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 24 March 2025

Description: Earners of the Basics in Lucidspark badge know how to build a board, how to collaborate effectively with their team using the virtual canvas, and how to leverage expert tips and tricks for an efficient whiteboarding experience.

Coaching for High Performance CPD

Issued by: [WorldSkills UK](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 24 March 2025

Description: Awarded to educators who have successfully completed the Coaching for High Performance CPD programme through the WorldSkills UK Learning Lab. The CPD draws on approaches used by coaches and educators across high performance domains to build on existing skills and supercharge their approach to teaching and training. The CPD is designed in partnership with Grey Matters.

Brainstorming in Lucidspark

Issued by: [Lucid Software](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 24 March 2025

Description: Earners of the Brainstorming in Lucidspark badge know how to generate new ideas using Lucidspark, how to organize and synthesize ideas to find solutions faster with their team, and how to build a repository of ideas for future ideation and documentation.

Moving from Competence to Excellence CPD

Issued by: [WorldSkills UK](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 25 March 2025

Description: Awarded to educators who have successfully completed the Moving from Competence to Excellence CPD through the WorldSkills UK Learning Lab. The CPD introduces WorldSkills UK Developing Excellence Framework that underpins the methodology for developing technical excellence and occupational expertise in students and apprentices. Developed through the award winning Centre of Excellence in partnership with NCFE.

[VFQ Foundations](#)

Issued by: [Emergn Ltd](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 25 March 2025

Description: The course goes beyond methodologies, it is designed for people who are supporting team working within the organisation to improve the way products, teams and projects run and function.

[Cloud DevOps](#)

Issued by: [Intel](#)

Issued to: Asim Abdulrahman

Issued on: 25 March 2025

Expires on: 24 March 2028

Description: Earners of this badge have demonstrated advanced knowledge, understanding, and proficiency in understanding DevOps and the cultural changes required to adopt it, especially as it pertains to the cloud, tools used in a DevOps environment, including source control systems, containers, artifact registries, and the continuous integration and continuous delivery (CI/CD) pipeline, as well as how to start using DevOps with the three primary CSPs (Amazon, Google, and Azure).

[Digital Marketing Learner 2025](#)

Issued by: [Certiprof](#)

Issued to: Asim Asim Abdulrahman Mohammed Omer

Issued on: 1 April 2025

Description: The Learner Badge by Certiprof recognizes the candidate's participation in an initial learning activity as part of their certification journey. This badge certifies attendance only and does not involve any evaluation of knowledge or skills, highlighting the participant's interest in building a foundational basis for their professional development.

[Design Sprint Learner 2025](#)

Issued by: [Certiprof](#)

Issued to: Asim Asim Abdulrahman Mohammed Omer

Issued on: 1 April 2025

Description: The Learner Badge by Certiprof recognizes the candidate's participation in an initial learning activity as part of their certification journey. This badge certifies attendance only and does not involve any evaluation of knowledge or skills, highlighting the participant's interest in building a foundational basis for their professional development.

[Business Model Canvas Essentials Learner 2025](#)

Issued by: [Certiprof](#)

Issued to: Asim Asim Abdulrahman Mohammed Omer

Issued on: 1 April 2025

Description: The Learner Badge by Certiprof recognizes the candidate's participation in an initial learning activity as part of their certification journey. This badge certifies attendance only and does not involve any evaluation of knowledge or skills, highlighting the participant's interest in building a foundational basis for their professional development.

[Cloud Security](#)

Issued by: [Intel](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 1 April 2025

Expires on: 1 April 2028

Description: Earners of this badge have demonstrated advanced knowledge, understanding, and proficiency in Cloud Security deployment options and industry solutions. They have acquired advanced understanding and applicability to better drive technical expertise for security related to cloud-based solutions powered by Intel® platforms, products and technologies.

[Creative Facilitation](#)

Issued by: [Lucid Software](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 4 April 2025

Description: Earners of Lucid's Creative Facilitation badge understand how to guide their team from complex problems to creative solutions. They have a deep understanding of implementing the principles of facilitation, planning effective sessions, conducting creative sessions, and documenting and delivering on their ideas.

Confidential Computing Security

Issued by: Intel

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 9 April 2025

Expires on: 9 October 2026

Description: Earners of this badge have demonstrated knowledge, understanding, and proficiency in Intel's value proposition for confidential computing. The skills acquired have prepared them to better drive business value for hardware-based security powered by Intel® platforms, products, and technologies.

Lifelong Learning

Issued by: Certiprof

Issued to: Asim Abdulrahman Mohammed Omer .

Issued on: 23 April 2025

Description: This badge has been issued to the candidates who have demonstrated their unwavering commitment to lifelong learning, which is vitally important in today's ever-changing and expanding digital world. It also identifies the qualities of an open, disciplined, and constantly evolving mind, capable of using and contributing knowledge to develop a more equal and better world.

Lean Leadership Learner 2025

Issued by: Certiprof

Issued to: Asim Asim Abdulrahman Mohammed Omer

Issued on: 23 April 2025

Description: The Learner Badge by Certiprof recognizes the candidate's participation in an initial learning activity as part of their certification journey. This badge certifies attendance only and does not involve any evaluation of knowledge or skills, highlighting the participant's interest in building a foundational basis for their professional development.

Cybersecurity Awareness Learner 2025

Issued by: Certiprof

Issued to: Asim Asim Abdulrahman Mohammed Omer

Issued on: 23 April 2025

Description: The Learner Badge by Certiprof recognizes the candidate's participation in an initial learning activity as part of their certification journey. This badge certifies attendance only and does not involve any evaluation of knowledge or skills, highlighting the participant's interest in building a foundational basis for their professional development.

[Scrum Foundation Learner 2025](#)

Issued by: [Certiprof](#)

Issued to: Asim Asim Abdulrahman Mohammed Omer

Issued on: 1 May 2025

Description: The Learner Badge by Certiprof recognizes the candidate's participation in an initial learning activity as part of their certification journey. This badge certifies attendance only and does not involve any evaluation of knowledge or skills, highlighting the participant's interest in building a foundational basis for their professional development.

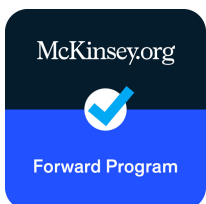

[Lean Leadership Masterclass Attendee 2025](#)

Issued by: [Certiprof](#)

Issued to: Asim Abdulrahman

Issued on: 23 May 2025

Description: Asistente a la Masterclass de Lean Leadership, donde se exploró el modelo de desarrollo de líderes de Toyota y los fundamentos del pensamiento Lean: empoderar personas, eliminar desperdicios y promover la mejora continua. Se desarrollaron habilidades para alinear procesos, equipos y propósito hacia la excelencia operativa y la generación de valor sostenible al cliente.

[McKinsey.org Forward Program](#)

Issued by: [McKinsey & Company](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 7 July 2025

Description: Earners of this badge have completed the McKinsey.org Forward online learning program. This program enables participants to develop practical skills for success in the future of work. Participants learn how to apply the McKinsey approach to problem-solving, become more effective and influential communicators and develop adaptable and resilience mindsets and habits. They also learn how to plan for and develop a foundational digital toolkit. The program's name was last updated in March 2025.

[IBM Concert Workflows Overview](#)

Issued by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 10 September 2025

Description: This credential earner has demonstrated knowledge in configuring and using IBM Concert Workflows. The badge earner has learned how to create workflows to automate mundane, everyday tasks like updating devices and changing passwords. Earning this badge ensures the technical foundation to begin using IBM Concert Workflows and creating, editing, scheduling, and running workflows.

[Enterprise Design Thinking Practitioner](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 18 September 2025

Description: This earner has knowledge of the value of Enterprise Design Thinking and its framework to solve complex, human-centered problems at scale. The individual understands the value of collaborating, conducting design research, synthesizing findings, prototyping, and storytelling to align teams. The Practitioner knows their primary user group, shares Enterprise Design Thinking with others, and finds opportunities to apply design thinking activities in their everyday work to drive better outcomes.

[Build an AI Agent](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 20 September 2025

Description: This credential earner has the technical knowledge and practical skills to build an AI agent using IBM watsonx.ai and optimize the performance of an AI agent. The individual can classify AI agents based on their decision-making approach and describe the steps to structure an AI agent workflow. The earner can identify the appropriate evaluation metrics for an AI agent and explain the key considerations for deploying and maintaining AI agents.

[AI Experiential Learning Lab: Industry Immersion](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 24 September 2025

Description: This credential earner has demonstrated proficiency and knowledge in applying IBM technologies and building AI agents to real industry use cases, and enterprise-ready AI solutions. They have completed 10 hours of self-paced and instructor-led learning, including design thinking and agile planning, with support from industry mentors for career development.

Career Management Essentials

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 24 September 2025

Description: This credential earner demonstrates a thorough understanding of the resume creation and interview process. The individual knows how to research workplaces, build a professional social network brand, identify their skills, create a standout resume to bypass application tracking systems, and prepare for interviews. The earner has practiced using AI tools to enhance a resume and tailor it for different job roles.

Working in a Digital World: Professional Skills

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 25 September 2025

Description: This credential earner understands key skills for professional success and core soft skills needed in the information technology workforce. This includes creating and delivering presentations; using agile approaches for working professionally to deliver quality work and experiences to customers; collaborating effectively with teams; communicating with impact; dealing with challenges in a controlled and focused manner; and solving problems and implementing solutions.

Code Generation and Optimization Using IBM Granite

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 27 September 2025

Description: This credential earner has the technical knowledge and practical skills to use IBM Granite models for code generation and programming tasks, and to optimize AI-generated code. The individual can identify the features of IBM Granite models and describe how they assist with programming tasks. The earner can apply prompting techniques to optimize AI-generated code and implement a structured workflow for reviewing and optimizing AI-generated code.

[Explore Emerging Tech](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 14 November 2025

Description: This credential earner has an understanding of six emerging technologies that power today's jobs: AI, blockchain, cloud computing, cybersecurity, data and analytics, and the Internet of Things. The individual knows foundational concepts, terminology, and how technologies are applied to solve problems in organizations and business. The earner can use this knowledge to explore careers in tech.

[Job Application Essentials](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 15 November 2025

Description: This credential earner demonstrates a strong understanding of how to position themselves effectively for their first job opportunity. The individual knows how to build a strong, professional social media and online presence; how to conduct thorough and effective workplace research personalized to their interests and skills; and how to create a strong entry-level resume, even without any prior work experience. The earner has also practiced interviewing professionally.

[IBM SkillsBuild Faculty](#)

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 2 December 2025

Expires on: 2 December 2027

Description: The IBM SkillsBuild Faculty badge is a credential awarded to faculty members who have successfully completed the IBM SkillsBuild learning path and demonstrated a commitment to empowering their students with digital skills. Faculty members who earn this badge are equipped to guide and support students in navigating IBM SkillsBuild courses, earning their digital credentials, and participating in skill-building activities such as projects, hackathons, and other experiential learning opportunities.

[Python Essentials 1](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 9 December 2025

Description: Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 1 course and achieved the student level credentials. Earners have knowledge of the concepts of computer programming, the syntax and semantics of the Python language as well as demonstrate the ability to accomplish coding tasks related to the essentials of programming in the Python language and resolve implementation challenges using the Python Standard Library.

English for IT 1

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 9 December 2025

Description: Cisco, in collaboration with OpenEDG, verifies the earner of this badge successfully completed the English for IT 1 course and achieved the student level credentials. Earners know how to use complex grammatical concepts correctly; they are familiar with concepts related to information security and job roles, and are able to understand phrases related to customer support; they can use vocabulary related to user experience, fraudulent calls, and network and software engineering.

Capstone Project: Applying UI/UX Design in the Real World

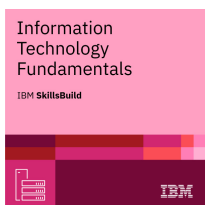

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 25 December 2025

Description: This badge earner knows how to apply the UI/UX design thinking process to complete a UI/UX project. They can apply UX research, synthesize insights into personas and problem statements, ideate and plan user flows, create wireframes and interactive prototypes, conduct usability testing, and iterate on feedback. The individual is also able to design high-fidelity, accessible interfaces, create a design system, and prepare developer-ready handoff files.

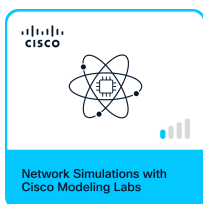

Information Technology Fundamentals

Issued by: IBM SkillsBuild

Issued to: Asim Abdulrahman Mohammed

Issued on: 25 December 2025

Description: This credential earner demonstrates knowledge of information technology (IT) basics, methodologies of troubleshooting, and the tools and resources that IT professionals use. The individual has a conceptual understanding of computer basics, networking, hardware, software, computer security, and has experience supporting a customer with a simulated remote connection tool. The earner is aware of the job outlook in IT and is familiar with the skills required for success in various roles.

[Introduction to Network Simulations with Cisco Modeling Labs](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed

Issued on: 26 December 2025

Description: This badge earner possesses foundational and practical skills in network simulation, proficiently using Cisco Modeling Labs to design, build, and manage virtual network topologies. They can configure virtual network devices, connect simulations to external networks, capture traffic, and leverage CML for effective network design, testing, and hands-on learning of complex networking concepts.

[Understanding Cisco Network Automation Essentials](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed

Issued on: 30 December 2025

Description: This badge earner has core knowledge of network automation fundamentals, such as the NetDevOps environment, data encoding formats (XML, JSON, and YAML), and scripting with Python. They have demonstrated practical skills in applying automation tooling (Ansible) and model-driven programmability using protocols (NETCONF, RESTCONF, gNMI) and data models (YANG) to scale and streamline network operations. This individual is ready to support the demands of modern network environments.

[Introduction to Cybersecurity Careers](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 4 January 2026

Description: This badge earner can compare the roles and responsibilities of various careers within the cybersecurity field and knows how to progress from one level to the next level. They can map IT fundamental, technical, and soft skills at various levels in cybersecurity. They know the required certifications for different job roles and the contents of each certification. The earner has discovered the various roles in cybersecurity and learned how to prepare for their chosen career path.

[AI for Networking](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed

Issued on: 13 January 2026

Expires on: 13 January 2029

Description: Achievement badge for completion of a tutorial that will provide theory, background, and use cases for AI and LLMs over the course of a network engineer's day-to-day tasks.

[Hardware and Operating System Essentials](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 31 January 2026

Description: This credential earner has demonstrated foundational knowledge of workstation and laptop internal components, ports, connectors, and external peripherals. The individual can identify notational systems and describe how to install, set up, and modify a Windows operating system, use keyboard shortcuts, troubleshoot storage and memory issues, and update device drivers. The earner can describe recommended installation steps, the CompTIA troubleshooting model, and key business continuity practices.

[Software, Programming, and Database Essentials](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 31 January 2026

Description: This badge earner has demonstrated a foundational knowledge of software, programming, and database basics. The badge earner has the ability to match file types to software, install and uninstall browser extensions and plug-ins, execute basic programming commands, showcase programming logic and organizational method, and perform basic database operations.

[Networking and Storage Essentials](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 31 January 2026

Description: This badge earner has demonstrated a foundational knowledge of computer networking and storage. The individual can describe basic networking and storage concepts and perform basic networking and storage tasks such as: setting up a small office or home office network; configuring network hardware; and troubleshooting common connectivity and storage issues. The badge earner has also demonstrated an ability to work hands-on with the command prompt and with network resources in Windows Settings.

[Introduction to Cloud Computing](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 31 January 2026

Description: This badge earner understands the basics of cloud technology and is able to describe cloud platforms and models including IaaS, PaaS, SaaS, and public, private and hybrid multiclouds. The badge earner is familiar with essentials of cloud applications and terms like Virtualization, VMs, Containers, Object Storage, Microservices, Serverless, Cloud Native, and DevOps. The individual has also gained hands-on experience at creating a cloud account and provisioning services on IBM Cloud.

[Cybersecurity Essentials](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 31 January 2026

Description: This badge earner has demonstrated intermediate skills in cybersecurity topics and best practices. They understand concerns related to the CIA triad, information privacy, authentication, authorization, accounting, and encryption. They are able to identify common types of security threats, breaches, social engineering, and malware and have demonstrated an ability to harden devices and perform password management and browser security configuration.

[Cybersecurity Breach Case Studies](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 2 February 2026

Description: This badge earner can research and describe breach cases including the following scenarios: A third party software company breach where multiple clients are affected; Ransomware threats and the consequences to organizations; Exposed data through misconfigured servers; and the effects of a phishing attack and cybersecurity criminal threats. The earner can investigate a real-world security breach identifying the attack, vulnerabilities, costs and prevention recommendations.

[CompTIA Security+ and CompTIA CySA+ Exam Readiness](#)

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 3 February 2026

Description: This badge earner has demonstrated their readiness for the CompTIA Security+ and CompTIA CySA+ exams by completing rigorous, timed exams. The badge earner can locate study resources, apply study strategies, and describe the CompTIA Security+ and CompTIA CySA+ required and recommended exam eligibility requirements. They are knowledgeable of the exam process including voucher procurement and exam registration. This badge earner is prepared to pursue these CompTIA cybersecurity certifications.

[Generative AI Essentials for Cybersecurity](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 3 February 2026

Description: This badge earner understands the role of generative AI in cybersecurity. They know the importance of quality training data and transparency in LLMs. The individual has gained insight into enhancing incident response and forensic analyses using generative AI, EDR, and SIEM functions for threat detection and the role of cybersecurity playbooks in incident report summarization. They recognize challenges in generative AI, from risk exploration to ChatGPT and ethical considerations in cybersecurity.

[Introduction to Cybersecurity Tools and Cyberattacks V3](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 4 February 2026

Description: This badge earner has demonstrated their understanding of the fundamentals of cybersecurity tools and cyberattacks. They can describe the importance of critical thinking and the various types of cyber threats. They can explain internet security threats, cybersecurity controls, authentication and access controls, and physical threats and controls. The badge earner is prepared to describe cyber threats and preventive methods when seeking a career in cybersecurity.

[Operating Systems: Overview, Administration, and Security](#)

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 4 February 2026

Description: This badge earner understands the key cybersecurity concepts related to operating systems. They have a basic understanding of architecture, file systems, security features, and user accounts in Windows, macOS, and Linux. They can use command-line tools to perform basic administrative tasks. The badge earner is also familiar with virtualization as it relates to operating systems and cloud computing.

ISC2 Candidate

Issued by: [ISC2](#)

Issued to: Asim Abdulrahman Mohammed

Issued on: 8 February 2026

Expires on: 28 February 2027

Description: ISC2 Candidates are individuals pursuing or considering a cybersecurity certification. To become a Candidate, the individual must apply online and provide minimum identifying information, as well as affirm that they will abide by the ISC2 Code of Ethics and Privacy Policy.

Network Defense

Issued by: [Cisco](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 13 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Defense course. The holder of this student-level credential has a broad understanding of techniques to monitor and protect the network, including access control, firewalls, cloud security, and cryptography. They are also familiar with how to evaluate and respond to security alerts.

JavaScript Essentials 2

Issued by: [Cisco](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 13 February 2026

Description: Cisco, in collaboration with OpenEDG JS Institute, verifies the earner of this badge successfully completed the JavaScript Essentials 2 course and achieved the student level credentials. Earner should know coding techniques while introducing both class-based and classless approaches in object-oriented programming, be familiar with a curated range of built-in objects that extend programming capabilities, manage complex data structures, such as Map and Set, and asynchronous programming.

Cyber Threat Management

Issued by: [Cisco](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 18 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Cyber Threat Management course. The holder of this student-level credential is familiar with cybersecurity policies and governance to ensure an organization complies with ethics standards and legal and regulatory frameworks. They understand how to do a network vulnerability assessment and create a risk management plan, as well as post-incident response.

[Ethical Hacker](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 18 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Ethical Hacker course. The holder of this student level credential has a broad understanding of the legal and compliance requirements and is proficient in the art of scoping, executing, reporting vulnerability assessments, and recommending mitigation strategies. The holder has completed up to 34 hands-on activities using Kali Linux, WebSploit, and other tools.

[Introduction to Cybersecurity](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 18 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

[Network Technician Career Path](#)

Issued by: Cisco

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 22 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Networking Technician career path and achieved this student level credential. Earner has knowledge of networking fundamentals, how devices communicate, cabling, network addressing and services, basics of configuring Cisco devices, troubleshooting and support of endpoints, networks, and users including diagnostics and documentation as a member of a help desk team, and basic wireless. Participated in up to 50 practice activities.

Cloud FinOps

Issued by: Intel

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 26 February 2026

Expires on: 25 February 2029

Description: Earners of this badge have demonstrated advanced knowledge, understanding, and proficiency in Cloud FinOps and Pricing topics including TCO models, accounting structures aligned to workloads, and cloud consumption billing and tools that contribute to cost management strategies and practices. They have acquired advanced understanding and applicability to better drive technical expertise for cloud-based solutions powered by Intel® platforms, products, and technologies.

PMP Exam Preparation

Issued by: Coursera

Authorized by: Pearson Enterprise Learning and Skills

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 28 February 2026

Description: This specialization equips learners with a deep understanding of agile and predictive methodologies, essential for the PMP exam. It covers integration, scope, schedule, cost, quality, and risk management, enhancing leadership and strategic thinking skills. By completion, learners are fully prepared to take the PMP exam, advancing their project management careers with confidence.

Network Security & Database Vulnerabilities

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 3 March 2026

Description: This badge earner understands network basics around the TCP/IP and OSI Models, as well as recount DNS, DHCP, Switching and Routing concepts. They can describe the structures and vulnerabilities of key databases for cybersecurity including SQL, Couch, Oracle and MongoDB.

Database Essentials and Vulnerabilities

Issued by: Coursera

Authorized by: IBM

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 3 March 2026

Description: This badge earner understands the concepts of relational and non-relational databases and can implement various data protection techniques to secure sensitive information. They know how to configure and manage database user profiles, password policies, privileges, and roles. They can identify, analyze, and mitigate database injection vulnerabilities, including OS command and SQL injection. The badge earner can also design and implement comprehensive database and application auditing models.

Incident Response and Digital Forensics

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Asim Abdulrahman Mohammed Omer

Issued on: 3 March 2026

Description: The badge earner demonstrates expertise in incident response and digital forensics using NIST and SANS frameworks to effectively manage cybersecurity incidents, collect and analyze digital evidence, and recover data using industry tools. They can now apply their practical, hands-on experience to strategize and develop incident response preparation, detection, containment, and reporting processes to help prevent, investigate, and resolve cybersecurity incidents.

OPSWAT Introduction to Critical Infrastructure Protection (ICIP)

Issued by: [OPSWAT](#)

Issued to: Asim Mohammed

Issued on: 4 March 2026

Expires on: 4 March 2027

Description: This certification program introduces users to fundamental critical infrastructure protection concepts, how to navigate the OPSWAT certification program requirements, and how to operate the OPSWAT Academy user interface. Topics include identifying the meaning of a critical network, defining critical infrastructure protection (CIP), identifying the purpose of the OPSWAT Academy, and defining the OPSWAT Academy certificate program structure.

YOUR PARTNER FOR EXCELLENCE
IN HIGHER EDUCATION **FIBAA**

FIBAA TRANSCRIPT LEGEND

This transcript contains credentials certified by FIBAA – Foundation for International Business Administration Accreditation. The following policies apply only to FIBAA certified credentials within the transcript. FIBAA certifications support the recognition of prior learning by validating formal learning experiences gained outside European Higher Education Institutions against academic standards in the European Higher Education Area (EHEA), thus supporting learners to apply for and gain recognition of ECTS (European Credit Transfer System) credits when entering an academic programme in Europe.

[FIBAA \(Foundation for International Business Administration Accreditation\)](#) is a European quality assurance agency for higher education and continuing education programmes. Founded in 1994, FIBAA is registered as an accreditation agency in Germany, Austria, Switzerland and further countries in Europe and abroad. In Europe, FIBAA is a member of ENQA (European Association for Quality Assurance in Higher Education) and of CEENQA (Central and Eastern European Network of Quality Assurance) and registered with EQAR (European Quality Assurance Register for Higher Education). On a trans-European level, FIBAA is member of INQAAHE (International Network for Quality Assurance Agencies in Higher Education) and AQAN (ASEAN Quality Assurance Network).

Each FIBAA certification is conducted by a team of experienced university faculty, an expert from professional practice and a qualified student. The panel team assesses the content, scope, and rigor of an organization's educational programme against the standards of the ESG (European Standards and Guidelines), the ECTS Users' Guide and the EQF (European Qualification Framework). The panel team makes appropriate recommendations for comparable ECTS credits and competencies achieved by students. For more information on processes and standards for FIBAA reviews, visit [FIBAA: Certification Procedures](#).

DEFINITIONS

FIBAA Endorsement: Credentials that carry a FIBAA endorsement of recommended ECTS credits are designated by the FIBAA logo in the left margin.

Name: Legal name as entered by the student at the time of transcript request. Because students may complete courses from multiple organizations, each credential also includes the name under which the credential was issued for tracking and verification if necessary.

Issued on: The date when the student completed the associated credential.

Credit Recommendations: Recommendations for credits are designated in ECTS. Each recommendation includes a total number of ECTS credits recommended and an EQF level assignment. Levels for which recommendations are issued include EQF levels 5 (mapping short cycle QF-EHEA), 6 (mapping first cycle QF-EHEA), 7 (mapping second cycle QF-EHEA) and 8 (mapping third cycle QF-EHEA).

Grade: FIBAA-endorsed credentials are only included on this official transcript if the student achieved a passing grade. FIBAA certification includes a validation of the assessments to be conducted by the learners, ensuring the assessments' appropriateness to reach the learning objectives on the assigned EQF level.

Intended EQF-Level: FIBAA certification includes a validation of the intended EQF level of the course to ensure learning objectives on EQF levels 5-8 (mapping the QF-EHEA levels short cycle, first cycle, second cycle, and third cycle, respectively).

ACE TRANSCRIPT LEGEND

The ACE Transcript is an official transcript that contains credentials evaluated by the American Council on Education (ACE). The following policies apply only to ACE-endorsed credentials within the transcript. ACE Learning Evaluations connects workplace learning with colleges and universities by assessing the quality and equivalency of nontraditional experiences. ACE's recommendations are intended to guide institutional decisions about the award of credit for prior learning.

ACE Learning Evaluations reviews are conducted by experienced college and university faculty who assess the content, scope, and rigor of an organization's educational program and make appropriate recommendations for comparable college credit and competencies achieved by learners. For more information on processes and standards for ACE reviews, visit <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Colleges-Universities.aspx>.

DEFINITIONS

Issued On: The date when the learner completed the associated credential.

Issued For: The learner's legal name as entered by the learner at the time of transcript request.

American Council on Education Endorsement: Credentials that carry an ACE endorsement of recommended college credits or validated competencies published on the ACE National Guide.

Course Number (ACE ID): ACE assigns a unique identifier to ACE-endorsed credentials (e.g., ACE-0001 (v.1)). The letter prefix designates the organization providing the experience. Version number is based on the date that the credential was earned.

Credit Recommendations: Contain academic subject area(s) recommended for credit aligning to a college course. Credit recommendations are designated in semester hour units (SH). Levels at which recommendations are issued include vocational/certificate, lower division (100–200 level courses), upper division (300–400 level courses), and graduate (500+ level courses).

Competencies: These competency statements are from recognized, industry-approved frameworks, and have been validated by the faculty team as outcomes demonstrated by learners who successfully complete the evaluated learning experience. They represent workplace-relevant skills, knowledge, and abilities expected of professionals in corresponding industries.

Grade: ACE-endorsed credentials are only included on this official transcript if the student achieved a passing grade. ACE-endorsed courses and exams meet the following minimum grading requirements: Students must earn a minimum grade of C for vocational/certificate, lower division, and upper division credit and a minimum grade of B for graduate-level credit. The credential provider might also supply the learner's actual grade under Evidence in the Learner's badge. Click on the Credential Title to access the badge issued to the learner.

RESOURCES

Additional information on ACE-endorsed educational programs, such as learning outcomes, assessment methods, etc., can be found in the ACE National Guide at <https://www.acenet.edu/national-guide/>. Military training and occupations that carry college credit recommendations can be found in the ACE Military Guide at <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/military-guide-online.aspx>.
